This Month's Program

Message from Jim Pajot, Vice-President/Program Chair

For our January meeting we will be auctioning off the books from our library. Hope everyone will come as there will be sure to be great bargains on some very fine orchid books, from general information and books on the various types to more specific books on cattis, phals, paphs, and more. Most have some great photos as well as useful and interesting information on culture, history, and the natural habitats of the many varieties of orchids in the world. Here's your chance to add some great books to your own library at a fraction of their cost. Note that the auction is open to everyone, so bring a friend. The book auction will be held as a silent auction so that members and any others interested have time to look the books over before deciding what they want to bid. Your support will be much appreciated, and I look forward to seeing you all there.
